- Quick learner and adapts quickly to any new situation and work proactively towards meeting deadlines is my forte.

PROFESSIONAL EXPERIENCE

Siemens Technology & Services Pvt Ltd | Bangalore

Software Test Engineer

July 2022 - Present

Project : Electronic Data Interchange
EDI is a process between two computer systems that enables two companies to exchange business information through standardized messages and specific communications systems, eliminating the need for human intervention.

Responsibilities

- Created, maintained, and executed automated test scripts using UFT and Playwright automation tools.
- Successfully migrated UFT test scripts to Playwright, reduced execution time and increased the test coverage by 15% and improved product quality by reducing the defect count by 20% by introducing automated test cases.
- Extensively used XPath, Regular Expressions, and classes to perform UI actions. Exported output reports for all automated testing results.
- Reported defects found through manual, automated, and performance testing to the development team.
- Wrote and executed automated tests in TypeScript/Playwright for browser-based applications.
- Designed and implemented API test cases using Postman, validating responses, request payloads, and error handling.
- Utilized version control systems (Git) to manage and track changes in test scripts, facilitating seamless collaboration within the team.
- Experienced in implementing the Page Object Model (POM) by creating reusable elements for UI automation..
- Involved in identifying test cases for regression testing and conducting regression test cycles.
- Experience with Data-Driven and BDD framework designing for automation projects.
- Performed various testing types including Functional, Integration, Regression, Smoke, Sanity Testing
- Conducted performance testing using JMeter, preparing test plans for load testing critical modules.
- Conducted exploratory testing during tight release cycle

📍 **Work Location** :
Bangalore, Karnataka - 560100

📍 **Permanent Address :**
Pune, Maharashtra - 411061

DOB : 06/05/1999

EDUCATION

Bachelor of Computer Engineering
AISSMS IOIT , PUNE

KEY SKILLS

- **Testing Tools**:

UFT, Playwright, Cucumber, API Testing using POSTMAN, Apache JMeter

- **Test Management Tools**:

Jira

- **Programming Languages:**

Java, JavaScript, HTML, SQL, TypeScript, Gherkin

- **Integration Tools:**

Jenkins

- **Database**:

MySQL

- **Framework**:

Page Object Model, Behavior Driven Development, Bootstrap, Data Driven

- **Automation & AI Tools:**

ChatGPT, Microsoft Copilot, GitHub Copilot for test automation

- **Others**:

Splunk, OpenShift
