

SHIVANI LONDHE

SOFTWARE TEST ENGINEER

P +91 8668707501 **E** shivanilondhe2017@gmail.com **A** Bangalore **L** <https://www.linkedin.com/in/shivani65>

PROFILE SUMMARY

- 3 years of experience in Software Testing.
- Familiar with all phases of software testing life cycle
- Good hands-on knowledge of agile methodology projects.
- Performed Manual testing and automation testing of the application and web services.
- Trained on API testing using Postman, Playwright, UFT, programming fundamentals and Java.
- Experience in writing test plan, test case, test procedure and test scripts from requirements and use-case.
- Experience in finding defects, reporting and tracking processes using bug tracking tools like Jira.
- Very good team player, Self-motivated, Hardworking professional with good organizational, leadership, interpersonal and communication skills.
- Quick learner and adapts quickly to any new situation/challenges and work proactively towards meeting deadlines is my forte.

PROFESSIONAL EXPERIENCE

Software Test Engineer | Siemens Technology | Bangalore

July 2022 - Current

Project: Electronic Data Interchange (EDI)

Roles & Responsibilities

- Designed and maintained scalable UI automation framework using Playwright with TypeScript
- Developed and executed 150+ automated test scripts covering functional, regression, and integration scenarios
- Built reusable utilities and enhanced existing Page Object Model (POM) structure for maintainability
- Migrated legacy UFT automation scripts to Playwright, reducing execution time by 35% and increasing test coverage by 15%
- Implemented parallel execution to reduce regression suite runtime significantly

EDUCATION

Bachelor Of Engineering

Computer Engineering

AISSMS IOIT| Pune

Percentage: 70%

KEY SKILLS

- **Automation tools:**
Playwright (typescript), selenium (basic)
- **API Testing:**
Postman, Rest API validation
- **Framework concepts:**
Page Object Model (pom), data-driven framework, BDD(cucumber)
- **CI/CD tools:**
Jenkins
- **Performance testing:**
Apache JMeter
- **Database :**
SQL (Data validation)
- **Version control:** Git
- **Defect tracking:** JIRA
- **Methodologies:** Agile
- **Other:** Cross-browser testing, Parallel execution, Regression suite optimization

- Designed and executed REST API test cases using Postman and Playwright including status code and response validation
- Performed backend validation using SQL queries to ensure data consistency between UI, API, and database layers
- Integrated automation suite into Jenkins CI/CD pipeline for scheduled and on-demand execution
- Generated HTML/Allure reports and shared execution summaries with stakeholders
- Conducted performance testing using Apache JMeter for critical business modules
- Identified and handled flaky tests using proper locator strategies and synchronization techniques
- Reduced production defect leakage by 20% through structured automation implementation
- Collaborated closely with developers, product owners, and business analysts in Agile sprint cycles

LANGUAGES

English | Marathi | Hindi

ADDITIONAL INFORMATION

Native: Pune, Maharashtra
DOB: 06/05/1999

KEY STRENGTH

- Strong debugging and problem-solving skills
- Quick learner with automation-first mindset
- Good understanding of SDLC & STLC
- Strong Communication and Stakeholder collaboration
- Focus on test stability and maintainable framework design
